

MOHD ARIF ANSARI

Python Developer | AI Engineer

☎ +91-7081168219 ✉ arifquerry@gmail.com 💼 [LinkedIn](#) 📁 [Portfolio](#) 🏠 [Github](#)

Summary

AI Engineer and Python Developer with hands-on experience building LLM-powered applications using LangChain, RAG, FastAPI, OpenAI, Gemini, and ChatGroq APIs. Completed AICTE-certified internship focused on conversational data analysis using LLMs. Experienced in developing AI search systems, chatbot applications, and full-stack web solutions. Strong problem-solving foundation with 500+ DSA problems solved.

Skills

Languages: Python, JavaScript, TypeScript, C++, HTML, CSS

Backend: Django, FastAPI, Node.js, Express.js

AI & ML: LangChain, RAG, OpenAI API, Gemini API, ChatGroq, LLM Integration, Prompt Engineering, Vector Databases, Pandas, NumPy, Scikit-learn

Frontend: React.js, Tailwind CSS, Bootstrap

Databases: MongoDB, MySQL, PostgreSQL, Redis

Tools: Git, Docker, Postman, VS Code, Ubuntu, [LeetCode](#), [GeeksforGeeks](#)

Experience

Virtual Intern – Conversational Data Analysis with LLMs

Sep 2025 – Oct 2025

AICTE & Vodafone Idea (VOIS) – Edunet Foundation

Tech Stack: Python, LLMs, Data Analysis

- Completed AICTE-certified virtual internship on building conversational AI systems for data analysis using LLMs
- Worked on integrating LLM pipelines for natural language querying of structured datasets and generating insights

Full Stack Development Intern

Jan 2026 – April 2026

FlashSpace (Stirring Minds Services Pvt Ltd), Delhi

Tech Stack: MERN, TypeScript, Docker

- Built reusable React + TypeScript + Tailwind CSS components across 5+ modules supporting 5 user roles
- Delivered scalable MVC backend and responsive frontend contributing to 10+ features; reduced API latency by ~20%
- Completed 30+ development tasks using ClickUp-based tracking with daily progress reporting

Projects

LLM-Powered AI Search Engine | Python, LangChain, Groq, Streamlit [GitHub](#)

2026

- Built AI-powered search engine using LangChain agents + Groq LLM querying Wikipedia, Arxiv, and DuckDuckGo
- Deployed Streamlit UI with real-time agent thought process streaming and tool-calling memory

Customer Salary Analysis | Python, Pandas, Scikit-learn, Matplotlib [GitHub](#)

2025

- End-to-end EDA on salary dataset using Pandas/Seaborn; applied Linear Regression and Random Forest for prediction
- Visualized feature correlations and model performance metrics via Matplotlib dashboards

Customer Churn Analysis | Python, Pandas, Scikit-learn, Seaborn

2025

- Churn prediction pipeline using Logistic Regression and Random Forest; handled class imbalance with SMOTE
- Generated Seaborn heatmaps and ROC curve visualizations for business insight reporting

MultiFunctional Car Portal | Django, Python, MySQL [Link](#)

2024

- Full-featured Django portal with role-based access, Django ORM queries, session auth, and admin panel customization
- Clean MVC architecture across 10+ modules with REST-style URL routing and CRUD operations

Awards & Certifications

- **GATE 2026:** Qualified
- **SIH 2025 – Leader:** Led HexaBruteForce to College-level selection for National round
- **HackerRank Software Engineer Intern Certification:** Cleared role-based assessment
- **Hacktoberfest 2022:** Open Source Contribution

Education

B.Tech – Computer Science

2023–2026

Chaudhary Charan Singh University, Meerut

CGPA: 8.67 / 10

Diploma – Computer Science

2020–2023

Government Polytechnic Adampur Tarabganj, Gonda

77.11%
