Summary

Full Stack Developer (MERN Stack) with production internship experience building scalable, maintainable web applications using React.js, Node.js, Express.js, MongoDB, and TypeScript. Proficient in REST API design, JWT authentication, WebSockets, MVC architecture, Docker, and Git-based Agile workflows. Strong DSA foundation, Passionate about writing clean, scalable code and delivering end-to-end full stack solutions.

Skills

Frontend: React.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, Tailwind CSS, Bootstrap, Redux, Context API, AJAX
Backend: Node.js, Express.js, REST APIs, MVC Architecture, JWT Authentication, OAuth2.0, WebSockets, Socket.IO, Middleware, OOP

Databases: MongoDB (NoSQL), Mongoose ODM, MySQL, PostgreSQL, Redis, SQL, Indexing, Query Optimization

DevOps & Tools: Git, GitHub, Docker, NPM, Postman, Linux/Ubuntu, VS Code, CI/CD (basics), Agile/Scrum

Integrations & AI: Razorpay, Google OAuth, Cloudinary, GeoApify, LangChain, RAG, OpenAI API, ChatGrok, Python

Experience

Full Stack Development Intern

Jan 2026 – Apr 2026

FlashSpace (Stirring Minds Services Pvt Ltd), Delhi

React.js | Node.js | TypeScript | MongoDB | Docker | Git

- Built production-grade MERN stack features across 5+ modules supporting 5 concurrent user roles; designed reusable React.js + TypeScript component library with Tailwind CSS following MVC architecture
- Developed and integrated RESTful APIs with JWT authentication and role-based access control (RBAC), reducing API rendering latency by ~20%; containerized dev environment with Docker and applied CI/CD pipeline concepts
- Participated in full Agile/Scrum workflows — sprint planning, daily standups, code reviews, and PR merges via Git branching strategies; delivered 30+ tasks contributing to 10+ production features

Projects

FoodTalab | React.js, Node.js, MongoDB, Socket.IO, JWT, Razorpay | [Link](#)

Feb 2026

- Architected production MERN food ordering platform with 5 user roles; implemented JWT + Google OAuth2.0 authentication, bcrypt hashing, Razorpay payment gateway, OTP delivery, and Cloudinary media management
- Built real-time order tracking via WebSockets (Socket.IO) with 3-stage updates; developed location-based broadcasting within 10 km using GeoApify with MongoDB geospatial indexing for sub-100ms query response
- Designed RESTful API layer (Node.js/Express.js) with 20+ endpoints, input validation middleware, error handling, and RBAC; deployed full stack on cloud (Render)

HelloAray Chat App | React.js, Node.js, Socket.IO, MongoDB, JWT, Cloudinary | [Link](#)

Sep 2025

- Built end-to-end MERN real-time chat with WebSocket architecture (Socket.IO), load-tested with 20+ concurrent users; optimized MongoDB NoSQL queries reducing message delivery latency by 35–40%
- Implemented JWT-secured REST APIs with protected route middleware; integrated Cloudinary for media sharing (images, videos, PDFs up to 10 MB); deployed on Vercel + Render

Awards & Certifications

- GATE 2026:** Qualified – Graduate Aptitude Test in Engineering (CS)
- DSA:** 300+ LeetCode | 250+ GFG
- SIH 2025 – Team Leader:** Led HexaBruteForce to college-level selection for Smart India Hackathon National Round
- HackerRank Software Engineer Intern Certification:** Cleared role-based technical assessment
- Hacktoberfest 2022:** Open Source Contributor

Education

B.Tech – Computer Science Engineering

2023–2026

Sir Chhotu Ram Institute of Engineering & Technology, CCS University, Meerut

CGPA: 8.67 / 10

Diploma – Computer Science

2020–2023

Government Polytechnic Adampur Tarabganj, Gonda

77.11%
